Summary

Code, Compete, Conquer

Hello and welcome to my LinkedIn profile! I'm Yati Vishnoi, a SWE-II at GOOGLE completed Computer Science engineering from the University Institute of Technology, RGPV, Bhopal.

I interned as a Summer Analyst in Controllers Division at Goldman Sachs, where I worked on the RHEL host machine and Orchestration service, primarily using the Java language.

Proud to be a 5-star coder on Codechef (Userhandle: yativishnoi1103) specializing in C++.

Oh I forgot to mention! Something that I love about programming is that it provides an opportunity to work with people from a wide range of disciplines. I am a member of various communities as I believe in the power of "collaborating and learning". I curiously take part in Hackathons coming up every now and then to "compete within constraints" and learn new things in the process

Open for Assistance: I have also been interviewed at 35+ companies like Google, Goldman Sachs, Amazon (3 times), Morgan Stanley, Service now, Walmart, BNP Paribas New York, Deloitte, Paypal, Adobe, Finserv, Persistent and so on. Whether you're seeking career guidance in the software engineering field, need interview preparation tips, a resume review, mentorship, or have queries about off-campus placements, feel free to book a 1:1 call with me using the link below.

Book a 1:1 Call: https://topmate.io/yati_vishnoi

Community Matters: If you're unable to pay for a session, don't hesitate to send me a direct message. I'm here to help and foster a collaborative learning environment.

Let's connect and explore the exciting world of technology together!

Experience

Google

Software Engineer-II

July 2024 - Present (4 months)

Hyderabad, Telangana, India

Goldman Sachs

Summer Analyst Intern
